Message | Kimberly A Rogers.docx (15 KB)

I'm much better early in the day.You have to be able to support everything on this resume, otherwise take it out. You will need to go with two pages because your BWC and R&M experience in right in their wheelhouse, which is to say "really great s—t, er, stuff.

To: Rogers, Kimberly
Subject: FYI

Get on that resume. I referred your name to Deanna Chaffins at McGregor Metalworking. Here's my response to her regarding potential present or retired BWC employees. This is you.

Yes I do. I spoke with Kim Rogers, Employer Services in Dayton, generally described Barb's position as I guesstimate it to be and asked if she would be interested. I was surprised that she responded with strong interest. She will get her resume together and make contact. She is outgoing, personable and works well with people at any level. Her experience is broad based and she is one of the few individuals I can think of that can exceed the expectations expressed in the Friday meeting. Claims management, hearing process, rate management to a T, proven employer interaction skills and a real team player with motivation to contribute. You would be fortunate to pull her away from BWC. However, I think she is frustrated with BWC's free fall to privatization and is galled by busy work that lacks challenge and utilizes so little of her ability. I just love to prove myself wrong and look stupid.

You can add more to the top line as far as "strengths". I just am not good at words right now. I have also attached my training transcript from the BWC learning center.

Let me know!

Deanna Chaffins, PHR is her official title. Maybe start out with "yo girl, wadup wif dis job thang". Or you could go with Dear Ms Chaffins. I appreciate the opportunity to meet with you and discuss my qualifications and your expectations for the Safety Manager position. Bob has told me it would be a challenging position and your goal is to implement a world class disability management process. We can do that. I look forward to meeting you. Sincerely, Kim Rogers

PS, make absolutely sure you can back up everything on the resume with real examples. When you meet her, fight your natural impulse to be outgoing and familiar right away. Screw that, relax and be yourself. They will be very fortunate to get you.

Line up the bullets in "qualifications" with the rest, take the weekend to study the contents, write out examples, practice responding to questions directed at the contents. Again, make sure you can support your statements. Read up on OSHA stuff connected to metal stamping, sound, vibration. Especially sound treatments because they are pursuing grant funds at Rose City. They have never used Trans Work grants at any facility, have just about no safety process or reporting. You will have a group interview eventually and the plant managers will want someone with OSHA experience. Study that stuff as much as possible before you meet Deanna and before the final group interview . You are most welcome.

Subject: Bob visits tomorrow

Jason, I have a Bob visit in Springfield @ 9:00am with 4 companies.....Morgal Machine, Rose City, OSMI & Carmichael. It is one visit to discuss all 4 companies. They are owned and managed by same people. I am going to fill the rest of day with Bob visits in Springfield area. I am working on schedule for tomorrow today. I don't plan on coming to DSO tomorrow. I will take leave time if need be. I will let you know closer to end of today my schedule, or just check my calendar. I will probably give you an rfl for the morning, and will call you tomorrow afternoon if I need to take any leave at end of day. Thanks.

Sincerely,

Kimberly Rogers, OWCG
