

**Notary Café**

What is NotaryCafe?

NotaryCafe.com serves as the central place to manage your notary profile that is directly connected to the online signing service software provided by NotarySoftware.com. There are many notary signing services across the nation that utilize this software and this provides you exposure to thousands of signings that occur each month with your single notary profile.

We offer two types of profiles:

You can create a free notary profile at NotaryCafe.com which will make you available to all of our member signing services for their signings.

If you would like to enhance your exposure you can also upgrade your notary profile to a paid membership. Members can make their profile available on the public listing, have their profile emphasized in bold in the search results for those inside the network, can input 4 additional zip codes to improve their search standing and will also have a proximity advantage over non members.

At NotaryCafe.com you can always update your profile and the changes take place instantly at all our member sites. With your free or paid membership you can also participate in our forums and have your questions answered or provide your knowledge to others who are looking for advice. Furthermore, you can participate in our complaint board that is helping agents get paid for overdue or unpaid signings and share their collection issues with others.

Looking Forward:

We hope to add new features to this website in the coming year and value your feedback. If you have suggestions for tools or utilities that you would find beneficial to you and your notary business please feel free to send us an email to [info@notarycafe.com](mailto:info@notarycafe.com).

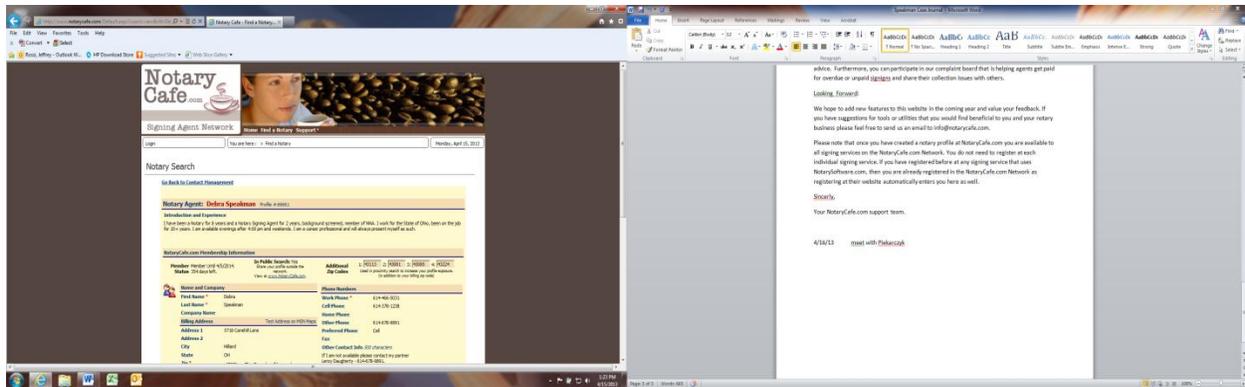

Please note that once you have created a notary profile at NotaryCafe.com you are available to all signing services on the NotaryCafe.com Network. You do not need to register at each individual signing service. If you have registered before at any signing service that uses NotarySoftware.com, then you are already registered in the NotaryCafe.com Network as registering at their website automatically enters you here as well.

Sincerely,

Your NotaryCafe.com support team.
