Gentlemen,

Does this timing work for you? I know we don't like to do things after Memorial Day, but it has taken longer than planned to get the PO from ODOT.

-Gus

Hey Gus,

Strawser has PO's in hand and we currently have you scheduled for the 28th (after memorial day & weather permitting).

From my understanding Dan and his crews are getting up there as early as tomorrow to start with the repairs.

Attached is a spreadsheet of the work we are doing just so you have in your notes along with

Exhibit 5

ps.

I have in my contacts Alan Fergusson @ 937-302-8947 & Shannon Hoffer @ 937-902-4950.

Please let me know if you have any questions and concerns. We appreciate the business this year.

Thanks,

Zack Helm

Hey guys,

I wanted to include everyone on the email to make sure we are all on the same page regarding Caesar Creek.

Gus, From our previous conversation everything looks fine on ODOT's level. We have our team scheduled to come in on May 20th, through the 22nd. That is before Memorial Day and also keeps us from doing any work on a Friday.

Obviously Dan will need to complete his repairs prior to us coming in. If we want to hit that May 20th deadline I believe Dan will need something signed in writing authorizing the go ahead this week so he can get in there.

Let me know if that will be a problem or not. Again, we will coordinate off your schedule Gus as this is your baby, but I thought it would be nice to try and complete everything before the holiday. Hopefully we are in the same line of thinking. I will also need a signed purchase order mid next week to keep us on the above schedule.

Thanks Gus and please let me know if there is anything else you need from me.
