Dear Sir,  
I have been brought to your attention  
that the C/Os in the movie contained  
in this report (copyright) movie to the  
authorities.  
I am sure you will appreciate my sincere hope  
that you will ensure that this type of  
activity & the negative consequences that  
can ensue as a result.  
I have spent 24 months in Federal  
Prison for Copyright Infringement. This type  
of activity was presented to me in the  
Utah Juvenile Detention Home where  
pirated movies were played constantly. As  
a result I became dilled to the possible  
legal consequences.  
Being that this is a controlled facility  
I feel that any type of illegal activities  
regardless of how minor it may be should  
be addressed. Thank You! [Signature]

There is a prevalent piracy issue taking place here at LO2CL. The CO's who operate the 4C intake block are continuously playing copyrighted movies that are still being shown in Theaters. These rips are commonly known as DVD Scanners, Coors, HD Rips or TeleSynes.

I think that this is a serious issue taking place here & that it should be addressed. This type of activity is illegal & promotes illegal behavior. I served time in Federal Prison for Copyright Infringement, & I would be lying if I told you that part of my infatuation for free movies & sharing didn't come from this same kind of behavior when I was a kid locked up in Elgin's Juvenile Detention Center.

I thank you,  
J. A.
